

## Weatherization Program Notice 00-2A

Effective Date - December 16, 1999

### **SUBJECT: REVISED PROGRAM YEAR 2000 TENTATIVE ALLOCATIONS**

**PURPOSE:** To provide revised tentative allocations to the States for their preparation and submission of applications for funding of the Low-Income Weatherization Assistance Program (Weatherization) for Program Year 2000.

**SCOPE:** The provisions of this guidance apply to all grantees applying for financial assistance under the Department of Energy Weatherization Assistance Program (DOE).

**BACKGROUND:** Title IV, Energy Conservation and Production Act as amended authorizes the Department of Energy to administer the Low-Income Weatherization Assistance Program. All grant awards made under this program shall comply with applicable law including, regulations contained in 10 CFR Part 440, and other procedures applicable to this regulation as DOE may from time to time prescribe for the administration of financial assistance.

**PROCEDURES:** The revised tentative allocations included in this guidance are to be used in conjunction with Weatherization Program Notice 00-1, 2000 Grant Guidance, in developing the annual grant application for Program Year 2000. The Weatherization Assistance Program has been exempted from an across-the-board cut for the Fiscal Year 2000 appropriations. This notice supercedes WPN 00-2, issued November 24, 1999 and represents the final State allocations to be used for Program Year 2000. As in Program Year 1999, DOE has increased the amount of Training and Technical Assistance funds available to the States. Also, DOE has updated the data in the formula for residential energy expenditures by State and the total U.S. energy consumption for heating and cooling. This updated data from the 1997 Residential Energy Consumption Survey had a modest effect on the allocation of funds among States.
